

**Nineteenth DOE Conference (1973) – Available from DTIC, Accession Database Number  
ADA002564, \$44.60**

Cover

Report Documentation Page

Title

Foreword

Table of Contents

Program

*Bayesian Statistics*, Jerome Cornfield

*Selection and Ranking Procedures for Multivariate Normal Populations*, Shanti S. Gupta

*Interpretation of Analysis of Variance Effects in Designs Yielding a Subjects x Treatment Interaction*,  
Ray T. Sterner, Richard S. Teplick, and James T. Wheeler

*Problems with a Compartment Model for Assessing Human Vitamin A Kinetics*, Richard Teplick

*Sample Size Determination and the Operating Characteristics Curve for the Circular Probable Error*,  
Gideon A. Culpepper

*Design and Analysis of a Hit Probability Experiment Based on a Bivariate Normal Distribution*, Robert  
W. Mai

*Model for Probability Hit Analysis of 20MM Projectiles*, Diana L. Frederick

*Condition/Effectiveness Model for Facility Components*, R.J. Colver, J.G. Kirby, P.V. Kauffold, R.E.  
DeVor, and M.J. Kraitsik

*Using the Beta Distribution to Suggest the Distribution of Computer Access Times to Storage*, Walter D.  
Foster

*On Bimodality in Parameterized Atmospheric Models and Some Solutions to Avoid It*, Oskar  
Essenwanger

*Toward the Prediction of Effects of Ultra-Short Laser Pulses*, E.W. Stuebing, E.A. Lucia, and F.D.  
Verderame

*Modeling See-Through Aerosols for Infrared Countersurveillance and Laser Countermeasures*, R.  
Doherty, J.J. Pinto, E.W. Stuebing, and F.D. Verderame

*Transformations Through a Non-Euclidean Space in a Linear Transformation Context*, Oren N. Dalton

Hartley Awarded the 1973 Samuel S. Wilks Memorial Medal, Frank E. Grubbs and J.S. Hunter

*Reliability Growth of the TF-30 Engine*, Bertram W. Haines, Frederick L. Carter, and Martha R.  
Cummings

*Reliability Growth Estimation from Failure and Time Truncated Testing*, Larry H. Crow

*Responsiveness Properties of Continuous Sampling Plans*, Richard M. Brugger

*Expected Values from a Markov Chain Model of CSP-F and the Z Transform*, David L. Arp

*Automated Production Line Modeling Using Gerts IIIQ*, Martin M. Roffman and Lawrence P. McNamee

*Configuration Management for Reliability/Maintenance Testing*, John Fagher

*Bayesian Inferences for Interval Reliability of Weibull Components*, Ronald L. Racicot

*Reliability of a Serial System*, A.E. Johnsrud

*The Role of Instrument Performance Standards in the Control of the White Sands Missile Range Test Support Process*, J.B. Gose and W.R. Jenkins

*Multivariate Analysis Techniques Applied to Equipment Testing*, John Bart Wilburn, Jr.

*One Shot Sensitivity Test for Extreme Percentage Points*, Seymour K. Einbinder

*Analysis of Techniques for Finding a Forward Observer*, Charles McElwee

*Predictive Equations for Accelerated Life Testing of Impregnated Charcoal*, W.S. Magee, Jr., J.A. Baker, E.J. Poziomek, J. Broadway, and H. Ball

*A Gaussian Tolerance Technique for Multilayer Optical Coatings*, J.J. Walls, Jr., R.A. McKyton, and A. Kawalec

*A Table of Cumulative Distribution Function Values of Expected Values of Normal Order Statistics*, Gary L. Aasheim

*A Strong Justification for the Use of Rank Tests in the Case of Non-Normality*, J. Sethuraman and D.H. Jones

*Statistical Analysis and Modeling of Path Loss Distance Dependency Information*, R. D'Accardi, D. Dence and C. Tsokos

*An Approach to Occupant Evaluation of Army Family Housing Interiors*, Roger Brauer and Robert Neathammer

*Generalized Jackknife Techniques*, H.L. Gray

*Reliability Growth*, Frank Proschan

*Some Critical Remarks on Accelerated Life Testing*, Sam C. Saunders

*Reliability of Multiple Component Systems*, Larry Lee and W.A. Thompson, Jr.

Nineteenth Conference on the Design of Experiments Attendees
