

**Sixth DOE Conference (1960) – Available from DTIC, Accession Database Number AD269807,
\$14.60**

Cover

Title

Foreword

Table of Contents

Program

Reliability, James R. Duffett

Examination of Residuals, F.J. Anscombe

A Simulation Error-Model for an Airborne Target Location System (published in a classified supplement), E. Biser and John Bechmann

Analysis of Some Trajectory Measuring Instrumentation Systems, Oliver Lee Kingsley

An Application of the Exponential Hazard Model to Aerosol Chamber Trial Data, Theodore W. Horner

Calibration of a Zinc Sulfide Particle Detector, John E. Malligo

Effects of Aiming Point Patterns on Bomb Salvo Target Coverage, Ralph D. Donner

Allocation of Resources and Military Worth System (published in a classified supplement), Walter E. Cushen

An Experiment in Personnel Management Evaluation, Richard R. Blough

A Note on Approximate Confidence Intervals for Functions of Binomial Parameters, Henry DeCicco

Performance of Propellants Evaluated by Tensile and Ballistic Tests, Niles White and Boyd Harshbarger

Problems in the Analysis and Interpretation of Information Processing Experiments, Emil H. Jebe and William A. Brown

Multivariate Analysis for Project Michigan Experiments, Emil H. Jebe

Computation of Expected Resolution Improvement Factor of an Inverse Filter System, Chandler Stewart

Panoramic Viewing Utilizing Hyperbolic Ellipsoidal Reflecting Optics, Donald W. Rees

Some Statistical Problems Related to Military Safety, Paul C. Cox

Application of Factorial Experiment and Box Technique to Ballistic Devices, D.J. Katsanis and C.L. Fulton

“Build-Up” of Single Point Source Data, R.F. White

Panel Discussion on *Common Pitfalls in the Design and Analysis of Experiments*, G.E.P. Box (Chairman), Cuthbert Daniel, J.S. Hunter, W.J. Youden, and Marvin Zelen

Some Tests for Outliers, C.P. Quesenberry and H.A. David

Note on Precision of Graded vs. All-or-None Response in Bioassay, Francis M. Wadley

A Comparison of Laboratory Evaluation and Field Wear of Military Fabrics, William S. Cowie

Group Screening Designs, W.S. Connor

Multivariate Analysis Illustrated by Nike-Hercules: I. Separation of Product and Measurement Variability, II. Acceptance Sampling, J. Edward Jackson

A Trial Comparing Certain Side Effects of Two Nerve Gas Antidotes, Using Human Subjects, C.A. deCandole and B.A. Richardson

Design of an Experiment for the Most Efficient Conduct of Safety, Reliability and Performance Tests of Fuzes in the Design and Development Stages, Gertrude Weintraub
